RE: In the Matter of applications of AT&T Inc. and Deutsche Telekom AG for consent to assign or Transfer Control of licenses and Authorizations; (WT Proceeding - No. 11-65).

Dear Commissioners:

As President of the Solano EDC I believe the proposed AT&T-T-Mobile merger would sustain jobs and benefit the expansion of telecommunications services in Solano and for this reason, I urge your support in allowing the federal process to move forward.

The Solano Economic Development Corporation includes public and private investors committed to the growth of Solano County and its seven major cities. We assist in the retention and growth of businesses in Solano – targeting the business sectors of bio-tech, information technology, energy, food and beverage production, military logistics, research and development that require 365/12/24/ high quality and capacity telecommunication and data services. I believe this merger will continued the advancement of communication technology and data transmission innovation allowing for the continued growth and attraction of targeted businesses.

In closing, my sincere hope is that the FCC recognizes the major economic benefit from this merger. Hopefully approval of this matter will take place as soon as possible removing the uncertainty and paving the way for additional capital investment in advanced communications. The deployment of this new technology will enhance Solano County businesses ability to growth thereby creating new jobs. For economic development organizations such as ours, new technological investment is of immense importance in positioning our seven communities to compete for rapidly growing technology based companies.

Sincerely,

Michael S. Ammann  
President
